About CH

Children's Harbor provides residential services to foster children and teens who have been abused and neglected. We keep brothers & sister together while they are in state custody, and provide homes to foster teenagers who are pregnant or parenting.

Our Family Strengthening Program provides support counseling and case management to at risk families in Broward County.

Child Abuse Prevention Month

It is a time to raise awareness about child abuse and neglect and create strong communities to support families and keep children safe.

- Child abuse kills nearly five children in the US everyday.
- A child abuse report is made every 10 seconds.
- Very young children (1-3 years old) are most frequent victims of fatalities
